Hey Josh,

Circling back with one question. Would (b) (5) DPP [REDACTED]

Ben

Hey Ann,

Attached are contribution estimates related to grazing.

Questions on other uses:

- I really don't see the value in running the analysis for timber or sand/gravel. (b) (5) DPP [REDACTED]
[REDACTED]. I can do it if you all want...let me know.
- Oil and gas. For Canyon of the Ancients, there is a comment from Adam that says 95% from the monument. Should I only run 95% of the production in the analysis?

Thanks.

Josh

Hey Josh,

Thanks for helping with the econ contributions analysis for some of the commodity production on the NMs. [Here](#) is a spreadsheet of the most recent production levels that we have compiled (it's also in the PPA folder in the National Monuments google drive). Let me know if there is any additional information we can provide that would simplify this task for you.

Thanks!

Ann
